SUMMARY

A Computer Science and bioscience student with a strong academic background and hands-on experience in laboratory research seeking to leverage expertise in [specific areas of bioscience, e.g., molecular biology, genetics, biopython] to contribute to groundbreaking research and development initiatives. Proven ability to design and execute experiments, analyze data, and collaborate effectively within multidisciplinary teams. Eager to apply knowledge and skills to advance scientific discovery and innovation in a dynamic research environment

EDUCATION

COMPUTER SCIENCE AND BIOSCIENCES 2021 - 2025
CENTURION UNIVERSITY OF TECHNOLOGY AND MANAGEMENT

PROJECTS

MEMORY MANAGEMENT OPTIMIZATION

CENTURION UNIVERSITY

To remove the unwanted data from the system. Linux is used as the source

ADVANCED INTELLIGENT TOURIST GUIDE

CENTURION UNIVERSITY

To develop a interactive and easy platform for tourism travellers and give them a smooth experience

ANALYZING DIFFERENT PLANTS ON SAME SPECIES AND FINDING SIMILARITIES

CENTURION UNIVERSITY

To find the similarities between different plants from the same species using the bio tools like clustal w, Geneious prime etc..

STRENGTHS

PROBLEM SOLVING SKILLS

PASSION ON LEARNING

CERTIFICATES

JAVA COURSE FOR PLACEMENTS

CERTIFICATE IN IDEA PITCHING COMPETITION FROM INNOVATORS AND ENTREPRENEURS

SKILLS

JAVA · PYTHON · HTML · CSS · JS ·

BIOPYTHON · BIOINFORMATICS

LANGUAGES

TELUGU

ENGLISH

HINDI

PASSIONS

To work on real life problems and strive to learn something really new.
